

SciAn's Systems Complete Independent Regulatory Audit

For immediate release: October 10, 2002

SciAn Services, Inc. Completed an Independent 3rd Party Regulatory Compliance Audit of its Data Management & Biostatistics Procedures & Systems

META Solutions, Inc. performed a regulatory compliance audit of SciAn Services, Inc. to determine the regulatory compliance status (ICH guidelines, FDA regulations, including 21 CFR Part 11 and industry expectations) of systems, procedures, documentation and controls involved in SciAn's Data Management and Bio-statistics services.

The audit team concluded the clinical data management and statistical analysis processes and standards meet expected CRO standards and also concluded that SciAn's computer systems and processes, including CDMmanager have been developed in quality manner under well-controlled quality management processes.

Miklos L. Schulz, Ph.D.
President
